

The background features a stylized illustration of two faces. The face on the left has a wide, toothy grin and a crown-like top. The face on the right has a more neutral expression with large, dark eyes and a small, curled mouth. The entire scene is set against a light pink background with white, leaf-like patterns.

ANTON

news + facts 2008/09 - hotel anton - st. anton am arlberg
hotel - bar - café - square - grünbeck - fon +43(0)5446-2408

...just do it this

on the turntables this season: one more time, total ANTON hip-hop, hotel and DJ programme for season 2008/09! - mr. guan, the dj: scratching and cutting at its very best is something this master masters, who ordinarily comes into voice for the loud minority: "basically, i am trying to bring good music to the people," he sums up his monumental task. - the loud minority & certainly a few guests who just happen by will also spin the dials, in accordance with the motto: "from old to new, from funk to soul to hip-hop, disco, broken beats, afro-funk and latin beats and everything that's funky and that really works out on the dance floor."

ANTON bar dj's this winter: in tried and tested fashion, our swedish house-dj armada, january gordon, dr. house - rhythm and beaz - january february dille, mr. snowboard - very cool vibes, february march antje de fox - new kid on the team - can he stand still? last but never least jogge borg - sir jogge ...just come by and enjoy, by the way, ask who is playing in grünbeck, and when!

chilling with "ANTONe, the soundz":that's what the cd by sunshine records from the ANTON bar is called. the fact that you can now take ANTON soundz home with you, all ready for listening, is practical and simply great. our patience here at the ANTON bar paid off. house parties for après-ski are really the cat's meow and are perfectly suited for everybody else as well. chilling after the ski runs - that's our program.

open air jazz on the square. in springtime '09, an old ANTON friend will be playing on the ANTON Square. The outstanding guitar maker and even better guitar player mathias tilzer will - together with his band - electrify the square dancers in any and all weather conditions.

la brass banda... after a fabulous concert in december, they're returning to our terrace on the square on 29 april.

way or that...

top it with playback

ANTON-nephew

emanuel has selected the grünbeck at the ANTON for his very first live performance. we are really looking forward to this "playback live".

...what's up last year? for example, the RED BULL speedride, an unparalleled competition, was pulled off by the ANTON completely alone, from the very first briefing all the way to the awards ceremony. the top stars of the freeride scene transformed the night to day a whole week long, as if it were completely normal - and our crew tacked hard to the wind, it was simply crazy all round.

ANTON garagenkult nr. 5

dj: loud minority
Live on stage: zweiA

La Brass Banda

10. Platz	0,50 €

the underground garage at the ANTON is cult. on 12 december 2008, dj loud minority, zweiA and la brass banda really stepped on the gas. and not merely the air was vibrating. at the ANTON garage cult no. 5, the ultimate hotel clash, the perfect party was thrown. even the year before, the "do it this way or that" texta-hiphopper brought the whole hall to a boil. with your support in the background, the garage rocked for all it was worth and the loud minority, as usual, provided all the necessary rhythms at the ANTON.

action at the

ski instructor parties:

that's when things take off at the ANTON. even without ski sticks.

highly motivated & intern

...that is probably the best way to describe the staff at the anton. offering our guests the very best. they fulfil your "thank you". we are happy that it is acknowledged and acclaimed. with "respect, please" everything is more harm

at the café

evelin and **anita** from the café (both for the fifth time)

markus (new at the café)

mona (masseuse)

ines from the reception

emil responsible for every-
thing, including women, in
daily operations

magnus responsible for
everything

kathi from the square

...leaf through the ANTON: the new library

books on legendary expeditions and a whole slew of other subjects (from mountain and valley) can be found at the ANTON library on the ground floor, effective immediately.

in the belly of the hotel, there is now a fantastic spot for words and stories, where detective stories and reading pleasures can be found in plenty. our ANTON architect wolfgang pöschl designed this totally world-alienated room including its secret bookshelf-door as a chillout zone with canapés and bookshelves all over the walls.

...the sun smiles... ANTON goes alternative-energy

effective immediately, the sun at the ANTON heats up everything: a genuine investment in the future was made by the ANTON last year. alternative forms of energy, such as solar cells for heating water and renovations which protect natural resources have transformed our hotel into a sustainably modern tourist operation.

all cooling appliances will be centrally controlled as of this winter; the heat from the cooling pipes will be stored in a separate boiler. the naked statistics prove it: every day, 3,264 liters of water are heated. since the solar system is working, we save - read it and weep - 3,645 liters of heating oil annually. it's no wonder that our investment mood for meaningful purchases has not ebbed. for example, our new, intelligent consumption regulatory system now sees to it that simultaneous consumption from various appliances is correctly distributed. that preserves the hardware and helps savings.

...fat beats & lines: master sprayer skero

ANTON friends: for example skero, who with the guys from texta even makes music. skero is the alter ego of martin skerwald, one of the first sprayers in austria. the 36-year old guy from mödling is just as competent with spray cans and markers as he is with language. the graffiti master has already sprayed a few lines for the ANTON, utterly legal, and with unmistakable ornaments and motifs.

friend skero helped us in developing the fat "nice life together" stickers for our ANTON house newsletter. these short descriptions for each sector of hotel operations, has useful and helpful tips that help to save energy, aerate, separate waste, all relating to nighttime and après-ski.

texta raps with and about skero:

i am sitting in the room and turn on the sampler/
and it occurs to me/
oh my god, i have to be at the station at 2 o'clock/
to pick up master skero in the peugeot/
with a cassette in the tape deck/skero:
i put away the walkman/
this is where a journey ends/
with both hands/
i grab the steering wheel/
and park at the main station and begin to think/
about the beginnings of texta/
our skills got better/
the beats got fatter/
a pile of people, running around at the station/
but thank god, skero isn't hard to recognize..

Skero lives and works in Vienna, has been a member of the hip hop group texta since 1992, since 2004 has studied at the akademie der bildenden künste in vienna / sculpture and painting / in daniel richter's class.
contact: www.skero.at
exhibitions: 2005 "romantic parasites" troupe exhibition in gars am kampf. 2006: "graffiti wien" exhibition at the galerie moya, löwenstr. 20, 1010 vienna. 2007 "ornament and crime" first one-man show at galerie artoits, lindengasse 28, 1070 vienna

...the way we have always restored: the hot ANTON story

when emmi and robert falch built the first public sauna in western austria in st. anton in 1953, there still appeared to be something slightly decadent about the naked-body culture imported from the far north. in their "gasthaus falch", which had to give way to the new train station in 2001, many friends of this healthy type of perspiration frequented the area from the start. and even though the falch family was nearly thrown out of church back then, the demand for their facilities proved they were right. celebrity holiday makers also used their sauna. from a long ways off, you could hear singer rudolf shock, who often visited the sauna together with deep sea diver hans haas, singing his heartwarming arias. ski racers also loved falch's perspiration rooms. david zwilling, then werner grissmann, who crowned his visit to the sauna with a stalk of wheat - were clearly not done any harm by the heat, their performance remained top notch. and then the royal family of the netherlands arrived for perspiration purposes, and later on even inquired about plans for their own sauna construction.

at the new hotel ANTON, the sauna tradition has been maintained. the most beautiful spot in the hotel is reserved for the panorama rooftop sauna. regardless whether a snowstorm is raging or it is a crystal-clear full moon night, orderly perspiring is a natural experience at its best, including fabulous views over the zwölferkopf and eisenspitze. new: in the new ANTON stone pine sauna, you can perspire towards even higher degrees of health.

...ANTON can be bought: the shop in me.

hip parts of ANTON: the first CD

“ANTONe - the soundz” with the typical ANTON feeling in a limited edition is available at the shop, as are books about hotel ANTON (“austria west” - a catalog of an architectural exhibition that went around the world, with the ANTON inside; architecture guide tirol, the most important architecture newspapers). and what else can be purchased at the shop that has ANTON on it? ANTON umbrellas, ANTON china, team jackets, ANTON-sos, buttons, t-shirts, caps, hats, key rings, cigarette lighters, ties, jackets, pencils

anti alpine-ruffian: ANTON & CRYSTAL

modern architecture in the alps or in holiday resorts with style. we are fanatic opponents of alpine ruffians and want to set an example of an environmentally friendly concept with the help of moderate party life and contemporary architecture. that is our credo. architect wolfgang pöschl and dieter comploj designed apartment hotel ANTON, which has been awarded the national architecture prize and the BTY construction prize of tyrol.

the concept of the hotel: a shingled wood facade, lots of glass, flexible combinations of 4, 6 or 8-bed rooms, walk-in closets between the rooms, bed benches instead of window benches, a bar, a café, the grünbeck espresso bar, the square and lots of art in the hotel. this year there is, for example, a multi-coloured facelift for the bar by our hotel artist and friend franz türtscher.

for details, see www.hotelanton.com

ANTON 10

ANTON 10 - japan loft: the ANTON 10 is the home of our crew and is crowned by a loft in japanese style that also serves as a luxurious holiday apartment for up to 8 guests. very trendy and highly recommended.

CRYSTAL
HOTEL ★★★★★

the ANTON also has a sister. her name is not antonia, but she still listens to her older brother. the CRYSTAL**** in fügen im zillertal has also been distilled to puristic perfection, just like the ANTON. our "hotel architect" and friend wolfgang pöschl is responsible for the whole new plan. he has already taken the first steps, with a stone pine shingled quiet room, a black aqua-meditation room, the entrance area and a rather different kind of stube. for details, please see www.crystal-vital.com
